WORK EXPERIENCE

Concentrix **Barcelona, Spain**
GCP Technical Solutions Representative - BIG DATA & AI *Oct 2023 - Present*

- Deployed batch inference and training pipelines in kubeflow for automatically detecting cases that need special attention helping to act proactively and improve user experience.
- Act as the primary technical solutions contact for Google Cloud's Big Data & AI/ML products, specializing in monitoring, reproducing, and troubleshooting faulty architectures.
- Provide hands-on assistance with GCP services: Vertex AI (Pipelines, Models, Custom training, AutoML, Gemini, Workbench), Dialogflow, BigQuery, Composer (Managed Airflow), Pub/Sub, Dataproc (Managed Spark), Dataflow (Managed Beam) and others.
- Advocate for and negotiate client interest to shape and improve the products towards user requirements.
- Manage a high-volume caseload of 15-22 cases. Thrive in a high-stakes, dynamic environment.

AC3E **Valparaiso, Chile**
Research Assistant *Apr 2023 - Jul 2023*

- Research on earthquake detection with fiber optic distributed acoustic sensing (DAS).
- Investigated the prospects and developed tools for earthquake predictions on the frequency-wavenumber domain.

Inria **Lille, France**
Software Engineer *Jan 2020 - Apr 2020*

- Developed metric-learn, a Python package that forms part of scikit-learn contributions package.
- The package implements algorithms that implicitly obtain a space transformation where the Euclidean distance is proportional to the semantic relation between pairs.
- Contributed through git pull requests, with my main contribution being the implementation of SCML, an innovation from the research group.

Kauel **Santiago, Chile**
Development Engineer *Jan 2019- Apr 2019*

- Contributed to key projects and enhanced my technical skills.
- Worked on designing and developing systems using AI and IoT, interfacing with clients, and delivering proof-of-concept demos.

Universidad Técnica Federico Santa María **Valparaiso, Chile**
Teaching Assistant *Jan 2017 - Dec 2017*

- Led weekly reinforcement in two classes, namely Probability & Stochastic Processes and Linear Algebra & Calculus.

EDUCATION

Universidad Técnica Federico Santa María **Valparaiso, Chile**
M.S. IN ELECTRONIC ENGINEERING *Graduation Date: 2023*

- Mention in Telecommunications and Signal Processing.
- Researched the application of Artificial intelligence in the context of fiber optic sensors. Specifically, designing and developing a CNN-based autoencoder solution written in Pytorch for Spectral-overlapped WDM in the context of FBGs.

Universidad Técnica Federico Santa María **Valparaiso, Chile**
B.S. IN ELECTRONIC ENGINEERING *Graduation Date: 2020*

- Mention in Computer Science.

CERTIFICATES

Google Cloud

Professional Machine Learning Engineer

Aug 2024

Google Cloud

Associate Cloud Engineer Certification

Jun 2024

Cambridge

First Certificate of English (FCE) level B2

Dec 2013

SKILLS & INTERESTS

Programming languages: Python, SQL, BASH, C/C++, Matlab, Assembly, Java, Verilog, LATEX, HTML

Frameworks, Libraries & Technologies: Kubeflow, Airflow, Git, Numpy, Pytorch, Tensorflow, Pandas, Sklearn, Xgboost, Matplotlib, Seaborn, PySpark, Pytest, OpenCV, Altium Designer, Vrep

Languages: Spanish (Native), English (Full professional proficiency)

Hobbies: Guitar, Boulderling
