WORK EXPERIENCE

- | | |
|---|--|
| Concentrix
<i>Google Cloud Technical Solutions Representative - Big Data & AI</i> | Barcelona, Spain
<i>Oct 2023 - Present</i> |
| <ul style="list-style-type: none">• Troubleshoot, reproduce and resolve issues with Google Cloud Platform (GCP) Big Data and AI/ML products, including BigQuery, Dataflow, Dataproc, Pub/Sub, Vertex AI, Dialogflow, and Composer.• Provide hands-on support to clients, utilizing public and internal documentation, as well as testing environments to simulate and resolve complex technical challenges.• Collaborate with Product Teams to address issues, feature requests, and undocumented behaviors, acting as the primary owner of client cases.• Manage a high-volume caseload of 15-22 cases. Thrive in a high-stakes, dynamic environment.• Designed and deployed batch inference and training pipelines for an XGBoost model using Python, Kubeflow, Vertex AI, and BigQuery, leading to proactively identifying and addressing cases requiring special care.• Worked with a highly imbalanced dataset, achieving a model performance of 80% recall and 50% precision to improve customer satisfaction. | |
| Advanced Center for Electrical and Electronic Engineering (AC3E)
<i>Research Assistant</i> | Valparaiso, Chile
<i>Apr 2023 - Jul 2023</i> |
| <ul style="list-style-type: none">• Conducted a comprehensive study on Earthquake Early Warning (EEW) systems.• Developed Python tools to analyze DAS data in the frequency-wavenumber domain, highlighting its potential as an efficient representation for ML-based EEW systems. | |
| Institut National de Recherche en Informatique et en Automatique (INRIA)
<i>Software Engineer</i> | Lille, France
<i>Jan 2020 - Apr 2020</i> |
| <ul style="list-style-type: none">• Contributed to metric-learn, a scikit-learn package for metric learning algorithms.• Implemented SCML algorithm, an innovation from the research group.• Maintained high code quality through comprehensive unit testing and documentation.• Collaborated with the open-source GitHub community through code reviews and pull requests. | |
| Kauel
<i>Software Engineer</i> | Santiago, Chile
<i>Jan 2019- Apr 2019</i> |
| <ul style="list-style-type: none">• Designed and developed embedded systems and AI solutions while collaborating with clients and delivering impactful demos.• Developed a custom driver for a POS system, resolving serial communication issues with oscilloscope analysis.• Delivered a functional demo featuring a NodeMCU microcontroller, a touchscreen interface, integrated payment processing, and transaction logging on a server.• Worked closely with the client to gather feedback and refine requirements.• Created a proof of concept leveraging the YOLO object detection algorithm for applications in the agricultural industry. | |
| Universidad Técnica Federico Santa María
<i>Teaching Assistant</i> | Valparaiso, Chile
<i>Jan 2017 - Dec 2017</i> |
| <ul style="list-style-type: none">• Led weekly reinforcement in two classes, namely Probability & Stochastic Processes and Linear Algebra & Calculus. | |

EDUCATION

Universidad Técnica Federico Santa María

Valparaíso, Chile

M.S. IN ELECTRONIC ENGINEERING

Graduation Date: 2023

- Specialization: Telecommunications and Signal Processing
- Relevant Coursework: Machine Learning, Advanced Probability, Electronic Bioengineering, Advanced Signal Processing, Fiber Optic Communications, Mathematical Methods for Control.
- The thesis resulted in published research with practical industrial applications

Universidad Técnica Federico Santa María

Valparaíso, Chile

B.S. IN ELECTRONIC ENGINEERING

Graduation Date: 2020

- Specialization: Computer Science
- Teaching Assistant: Probability & Stochastic Processes, Linear Algebra & Calculus

PUBLICATIONS

- "Multipeak Wavelength Detection of Spectrally Overlapped Fiber Bragg Grating Sensors Through a CNN-Based Autoencoder" - IEEE Sensors Journal (2024)
- "Peak detection of spectrally-overlapped fibre Bragg gratings using an autoencoder convolutional neural network" - EWOFS (2023)

CERTIFICATES

- Google Cloud Professional Machine Learning Engineer *Aug 2024*
- Google Cloud Associate Cloud Engineer *Jun 2024*
- Cambridge First Certificate in English (FCE) *Dec 2013*

TECHNICAL SKILLS

Cloud & MLOps

- Google Cloud Platform (GCP): GKE, GCE, Storage, Networking, IAM, Logging, Monitoring, BigQuery, Dataflow, Dataproc, Composer
- MLOps Tools: Kubeflow, Airflow, Git, Docker, Kubernetes

Machine Learning & AI

- Frameworks: PyTorch, TensorFlow, Keras, Scikit-learn, XGBoost
- NLP & Vision: LangChain, OpenCV, torchvision
- ML Infrastructure: Vertex AI (Pipelines, Deployment, Batch Inference, ML Metadata, etc)

Programming & Development

- Languages: Python, SQL, C/C++, Bash, Java
- Visualization: Matplotlib, Seaborn
- Data Processing: Pandas, NumPy, PySpark
- Testing & Linting: Pytest, flake8

Languages: Spanish (Native), English (Full professional proficiency)
